

混凝土地面压花处理

10cm C20混凝土地面
10cm 回填5%水泥稳定石粉基层
素土夯实，压实度不小于97%

200mm

Figure 1: Cross-section diagram of a stone pile foundation. The diagram shows a central stone pile with a diameter of 200mm. The pile is composed of stones and is surrounded by a 150mm thick C20 concrete sleeve. The total height of the pile is 1500mm. The pile is embedded in a 150mm thick concrete base. The base is supported by a 150mm thick concrete layer. The ground level is indicated by a dashed line. The pile is labeled "堆石桩" (stone pile) and the concrete sleeve is labeled "150厚C20混凝土" (150mm thick C20 concrete). The ground is labeled "地面" (ground level). The pile is shown with a cross-section of 100mm, 200mm, and 100mm.

Technical drawing dimensions:

- Top diameter: 200
- Total height: 800
- Central section diameter: 100

Labels in the photograph:

- 安装此品种物腰鼓造型
- 6 米规格灯表面喷砂或氟碳漆
- 腰鼓
- 喷八角花图案
- 八角花图案
